# WPPA

The Western Positive Psychology Association (WPPA) is dedicated to creating a collaborative scientific community of faculty, students, and scholars to advance and support academic agenda in the field of positive psychology in the western region of the United States. The WPPA encourages education, research and dissemination of knowledge in positive psychology and supports the professional development of positive psychology faculty and students in the region. The Western Positive Psychology Association (WPPA) is excited to announce its inaugural conference in Albuquerque, New Mexico, a landmark event that signifies our expansion and the flourishing of our community beyond our traditional boundaries in California. This strategic move aligns with our vision to enhance the scientific research and professional development of positive psychology, making a lasting impact across the western region of the United States.

**STEWART I. DONALDSON, PH.D.**

**PRESIDENT & CO-FOUNDER**

Stewart I. Donaldson is a distinguished university professor, the executive director of the university's Claremont Evaluation Center (CEC), and the director of The Evaluators' Institute (TEI). Professor Donaldson works with students on a wide range of topics across several fields and programs at CGU, including the science of positive psychology, positive organizational psychology, and program design and evaluation.

**SHARI YOUNG KUCHENBECKER, PH.D.**

**EXECUTIVE DIRECTOR & CO-FOUNDER**

Shari Young Kuchenbecker, Ph.D., from UCLA, with a B.A. from Stanford, has collaborated on research across the Western Region, focusing on the nexus of emotions, thoughts, and actions. As Director of R.W. Research, Inc., she emphasizes pro-social skills, empathy, and cognitive-emotional regulation, contributing significantly to developmental studies and social change through presentations at APA and WPA alongside notable psychologists.

Acknowledging Stewart and Shari's indispensable role, we express our deepest gratitude for their vision, leadership, and mentorship. Their efforts have been crucial in bringing this conference to life, setting a standard of excellence and collaboration.

# A MESSAGE FROM THE CENTER FOR APPLIED POSITIVE PSYCHOLOGY

It is with great pleasure and anticipation that we, the Center for Applied Positive Psychology (CAPP) in Albuquerque, welcome you to the 8th annual Western Positive Psychology Association Conference. This year, as hosts, we are privileged to bring the conference to our vibrant city, marking a significant milestone in our journey with the WPPA. Our community of practice, a collective of professors, researchers, clinicians, students, and leaders, is united by a singular mission: to spread positive psychology far and wide, nurturing the growth of our communities.

The partnership between CAPP and WPPA has been strengthened by years of active participation in WPPA conferences, beginning with the inaugural event. CAPP, a community dedicated to researching and applying positive psychology, has consistently attended these conferences, valuing the opportunity to exchange ideas and foster connections. This enduring engagement has deepened the ties between CAPP and the WPPA, leading to the invitation for CAPP to host the 8th annual conference at the University of New Mexico. Hosting this conference is a milestone for CAPP and WPPA, reflecting both the strength of our relationship and our joint commitment to broadening the reach of positive psychology.

We are particularly excited about the diverse range of topics covered at the conference, from the application of positive psychology in organizational settings to its role in personal development, health, and well-being. Each session is an invitation to explore new perspectives, challenge existing paradigms, and contribute to the evolving landscape of positive psychology.

This gathering is more than a conference; it is a community coming together in the spirit of collaboration and growth. Albuquerque, with its unique blend of cultural heritage and natural beauty, provides the perfect setting for this meeting of minds and we are excited to welcome you to our home. We encourage you to engage fully with the program, to connect with your peers, and to take this opportunity to contribute to our shared mission of spreading positive psychology.

With warmth,

# ABOUT THE CONFERENCE

## FROM SURVIVING TO THRIVING

---

### OUR MISSION

The conference, hosted at **the University of New Mexico**, will explore an array of engaging topics, such as the application of positive psychology in organizations, the exploration of positive development throughout the lifespan, the investigation of positive health and well-being, and thriving in organizations. It will also examine aspects of positive personality and social psychology and discuss evidence-based applications in coaching, clinical psychology, and teaching, among other diverse contexts.

# COMMUNITY BUILDING

---

The **Western Positive Psychology Association** 8th Annual Conference, revolves around the unofficial theme of '**community building**.' With "From Surviving to Thriving" guiding our mission, we are committed to creating an environment that encourages the formation and deepening of connections. This gathering is a testament to our **collective effort to advance the field** of positive psychology, emphasizing the importance of collaboration and mutual support in our journey towards a more resilient and interconnected community.

# CONFERENCE WORKSHOPS

**Sunday, March 24**

## **Application of Well-Being Practices and Positive Psychology within a National Laboratory Workplace Setting**

This workshop focuses Sandia National Laboratories' positive psychology program for enhancing employee well-being through values, emotion regulation, and relationship skills. It showcases successful outcomes from its implementation, including stress reduction and improved mood, with an emphasis on resilience and managing time scarcity.

**Ben Klein, Ph.D., CEAP and Debbie Kolkmeier, M.S**

## **A Practical Guide For Using Motivational Interviewing in Coaching**

This concise 3-hour workshop focuses on mastering Motivational Interviewing (MI) techniques and a coaching mindset to promote lasting client change. Participants will practice reflective listening and analyze coaching interactions to encourage transformative discussions. Demonstrating MI's application from initial to advanced coaching stages, the session emphasizes a holistic approach rooted in positive psychology for deep, enduring client growth.

**Lindsay Worth, MPA, MA, LMHC**

## **Mental and Emotional Self-Management and Mindfulness in Recovery: Cutting Edge, Trauma Informed Recovery Programming**

This workshop introduces Mental and Emotional Self-Management (MESM) and Mindfulness in Recovery (MIR) as complementary interventions for substance and behavioral disorders recovery. Participants will learn skills for nervous system regulation, values-based visioning, and attention training, enhancing recovery and intentional living, with insights into ongoing research.

**Vanessa Kettering, Ph.D.**
